

## Bottom Diffused Aeration

WITH VERTEX MICRONBUBBLE™ TECHNOLOGY

Vertex diffused aeration cabinets for smaller lakes are super-efficient, affordable and safe. The rising force of millions of bubbles transports bottom water to the surface, allowing oxygen to be absorbed and circulating the entire water column.

Options for this system include Sound kits, Shallow Water AirStations and VBS remote valve boxes

### Expert Sizing and Layout Mapping Service available

Our systems have a full 3-year warranty, excluding wearable parts (air filters and compressor maintenance kits) plus a Limited Lifetime warranty against rust and corrosion on the cabinet, 5-year warranty on the AirStations™ and a 15-year warranty on BottomLine™ supply tubing.

We reserve the right to improve/change our designs/specifications without notice or obligation.
